Willis Dady's Housing Programs empower clients to break the cycle of homelessness by supporting them in identifying and maintaing housing.

RAPID RE-HOUSING

Our short-term rapid re-housing program provides just enough financial assistance to get individuals and families experiencing literal homelessness into safe, stable housing. With the support and guidance of a case manager, clients are able to connect with landlords, employers, benefits, and other resources to gain and maintain stable housing.

LANDLORD PARTNERSHIPS

Our case managers work diligently to house every client experiencing homelessness within 30-days of program entry, this could not be possible without the partnerships we build with local landlords and property owners. Our case managers not only supplement as needed rental assistance, but also collaborate with each client to tailor services on an individual basis to ensure success once we step out of the picture.

SUPPORTIVE HOUSING

Supportive housing provides individuals and families whom have experienced persistent homelessness due to an array of barriers a stable housing option. With a dedicated case manager providing ongoing, intensive support, clients are able to be empowered and build a support system to achieve self-reliance.

COOPERATIVE SUPPORTIVE HOUSING

Our cooperative housing program is built on the notion that it is a great benefit for individuals with high barriers experiencing homelessness to have peer support and accountability. Our clients rent a room in a single family home and engage in weekly house meetings and individualized case management to problem solve and become successful with the support of their roommates.
